The Board of Police yesterday sign fied their deterprestrice—A SAVING EFFECTED.

The Board of Police yesterday sign fied their deterpoint on to strengthen the hands of the new superpolice of the district inspection and
to increase Mr. Murray's executive control of the
orce. The district offices were ordered to be given
to immediately; the district inspectors are to retort to Superintendent Murray at Police
leadquarters; the sergeants, roundsleadquarters; the sergeants, roundsleadquarters; the sergeants, roundsleadquarters; the sergeants, roundsleadquarters, and the practice of making exira
or precincts, and the practice of making exira
recinct returns of arrests to the inspectors will be
liscontinued. Hereafter the Third Inspection District, commanded by Inspector Dilks, will embrace
may those precincts above One-hundred-and-tentht., instead of above Fifty-ninth-st., a loss of five
recincts to the district. The Second District will
nelude the precincts on the west side of the city
below One-hundred-and-tenth-st., and the relisting one precincts will make up the First
District. Rooms at Police Headquarters
which were used by Mr., Murray while he was in
charge of the First Inspection District will be
occupied by the district inspectors when they are
writing out reports, but the inspectors will be
belied to do their own inspecting, under the direction of the superintendent, instead of entrustrection of the superintendent, of a
commissioner or of the chief clerk, unless
they have urgent business there. Orders from the
superintendent to a captain will be transmitted directly instead of through an inspector, and a captain's report will go straight to the superintendent, of
one missioner or of the chief clerk. Unless
they have urgent business there. Orders from the
superintendent to a captain will be transmitted directly instead of thro

An experience of many years' active ice as an officer of the department (the nine last as a ict inspector) has convinced me that the system is bersome, expensive and practically useless. Dupli-returns are required when there is necessity for but and thus a great and unnecessary expense is in-ed for stationery and blanks.

district inspection squads have embraced regants, thirteen roundsmen and as many pa-en, who will now be available for precinct

daty.

No effort was made by the Commissioners yesterday to come to an agreement regarding an appointment to fill the vacant inspectorship. Messrs. French and McClave were said to be more firmly resolved than ever to promote Captain Williams, while Mr. Voorhis was taclined to take sides with General Porter opposing such a step. Mr. Voorhis offered resolutions calling for a competitive civil service examination of all the captains who were candidates for promotion, but no action was taken on them. Besides Captains Williams and McCullagh, the list of applicants for promotion now includes Captains Gastlin, Killilea and Allaire.

DYING THREE DAYS AFTER THE ASACULA.

A NEGRO WHO THREATENS TO CUT THE HEART OUT

OF A MAN BREAKS HIS SKULL.

Detectives of the Fifteenth Precinct were searching yesterday for 2n unknown colored man who will be arrested on a charge of murder if he can be found. On Suaday night he struck down Frank Peterson, a colored youth, in West Third-st., inflicting a fatal injury. Peterson had been employed as a truckman by the Metro-politan Van Company in Mercer-st. He was said to be somewhat wiid, but good tempered. Although he had a widowed mother and several younger brothers and sisters living at No. 135 West Third-st., he did little to help support them. He boarded at No. 176 I homp-son-st, and spent the money that he earned for his own comfort. His assailant is described as a short, thick set and black-skinned negro. Peterson was walking in Third-st., near Sixth-ave., with his sister, another colored girl and "Jack" Allen, of No. 178 Thompson-st., when the assailant ran up behind him and dealt him a murderous blow on the head with a brick. Neither Peterson nor bis companions knew the man, who easily made his escape. Peterson did not think that he was hurt seriously at the time. Dr. Early, of No. 83 Macdongal-st., dressed the wound, and the young man worked for three days being troubled slightly by a pain in his head. When he became suddenly worse, and died on Weduesday night, his friends thought that it was time to inform the police. A post mortem examination on Thursday disclosed a fracture of the skull.

The murderer is believed to be the man who stabbed Sarah Whitus, a young colored woman of No. 220 sullivan-st, three months ago. Peterson and Sarah had been visiting at No. 176 Thompsonst, she had been visiting at No. 176 Thompsonst, she was met in the alley by the unknown negro who asked her if she was ksoping company with Peterson. She said that she was, whereupon the negro drew a razor from his pocket and slashed the back of her right hand, inflicting a slight out. "Take that to him," he said, "and tell him Pil c

LIVELY QUESTIONS IN THE KEEP CASE. MP. STRAHAN CONTINUES TO BOTHER MR. M'WILL-IAMS-THE CASE STILL ON.

The cross-examination of Mr. McWilliams, secretary and treasurer of the Manhattan Railway Company, was resumed yesterday in Jofferson Market in the Keep libel case. He testified that the Metropolitan, New-York and Manhattan Companies were consolidated on August 1, 1894. Mr. Strahan asked for the agreement and Mr. Goodwin said that the witness did not have it.

what was the stock of the New-York and Metropolitan Companies?"
The witness—\$6,500,000 each.
Mr. Strahan—Prior to the tripartite agreement then these two companies, with a capital of \$13,000,000, were entitled to a dividend of 10 per cent from the Manhattan Company be fore any other dividend could be paid on "the stock of the Manhattan Railway Company". The witness—They were.
Mr. Strahan—Does the Manhattan Railway Company pay any dividend except the dividend upon the consolidated stock of the Manhattan Railway Company?
The witness—By the terms of the lease the rental is payable by the New-York Company to the Manhattan Railway Company, and not to the stockholders.
Mr. Strahan—Irepeat the question.
The witness—They pay dividend rentals to the parent company. There are no other dividends payable.
Mr. Strahan—Now I repeat the question:

SUNDAY CONCERTS THAT ARE SACRED.

Commissioner Powers startled the Park Board vesterday by rising from his seat and announcing that he desired to call attention to the selling of liquor in the city parks on Sunday.
"I will offer a resolution." he added, "directing the secretary to inform all persons having stands for the seale of spirituous liquors or beer in the parks of the department, whatever their rights, that on Sunday those rights must be confined to their own premises with closed doors."

"I do not see what we can do about this," said Mr. Crimmins; "the Board has already passed on the Sunday concerts and approved them."
"In either case that I have mentioned," added Mr. Powers, "the members of the Board are liable to prosecution. I wish to put myself on record against assuming

this responsibility."
"We are willing to take the responsibility," said Mr. Beekman.

A large delegation from Morrisania urged that the

The question of removing the offices of the Board to the Stewart Building is being considered by the Commissioners. Mr. [Crimmins ] and that an offer had been made to Mr. Hilton of \$5,000 a year rental for rooms on the third floor fronting on Chambers st. The present quarters of the Board, he said, are inconvenient for the speedy transaction of business with other city offices and the members are all in favor of making this change.

CIVIL SERVICE REFORM IN THE COURTS.

CIVIL SERVICE REFORM IN THE COURTS.

The State Civil Service Commissioners spent the greater part of yesterday at the New-York Hotel in conference with the examiners for positions under the Excise Commissioners and with the examiners of the New-York and Brooklyn courts. The reports of the examiners showed that the application of the Civil Service rules to these departments had been attended with excellent results. A letter from Court Cirk Boese to ex-Judge Arnoux was read in which the writer said:

"The attendants on this court appointed under the Civil Service are more intelligent and competent than a large majority of those appointed under the old system. My observation has not been confined to the Superior Court, but applies to the Supreme Court as well."

A letter was also received from Dr. Murray, secretary of the Board of Regents, in reference to the appointment of a Law Librarian at Syracuse. The Commissioners decided that since the holdors of these positions are paid, wholly or in part, from the Chancery fund, in the custody of the Clerk of the Court of Appeals, they are rules; these places are non-competitive in character. Another resolution passed was one permitting health officers, who are now required to qualify before the Commission may designate upon the recommendation of the State Board of Health. The following persons were appointed as a board of examiners for positions in the State engineering service: Professor Cady Staley, of Union College, John D. Van Buren, jr., and John Bogart, secretary of the American Society of Civil Engineers.

THE RECEPTION OF THE BIG STATUE.

THE RECEPTION OF THE BIG STATUE.

The Aldermen yesterday requested the First Division, National Guard, to act as an escort to the city officials and invited guests at the reception of the Bartholdi statue. President Sanger said that nothing had been beard of the Isère since she left France. All the arrangements for the reception were now complete. Mr. Sanger offered the following, which was unanimously adopted: "The Common Council of the City of New-York extend to the officers and sallors of the Isère a cordial welcome on their arrival at this port. Among the stirring and unique instances of modern times, the rare illustration of National good-will afforded by the French Republic will stand out as typical of the spirit of brothernood, of a love of liberty, of reciprocal respect for grand National characteristics creditable to both Nations; as a beacon in this country of progress and enlightenment. As participants in this act of international comity, the officers of the Isère and the representatives of the City of New-York meet on common ground, dedicated to peace and civilization. We appreciate the kindly motives which prompted the gift from the people of France, and shallever cherish it as a noble monument of fraternal regard."

MOT ABLE TO CONVICT HIM OF MURDER.

The trial of Joseph J. Conroy, the youth charged with killing Rauben Applegate, who was nearly sixty years old, was begun before Justice Barrett, in the Court of Oyer and Terminer, yesterday. The old seacaptain was masquerading in woman's clothes at Dover and Water sts., on March 14, when, as is alleged, Courry with a gang of young men encountered him, and the prisoner, after knocking off Applegate's hat, exclaimed: "You are a man, I see," and struck him a fatal blow. Assistant District-Attorney Fellows, in opening the case said that although the indictment was for murder in the first degree, he should only claim, on the facts of the case, a verdict of manslaughter in the second degree. The trial will be continued on Monday.

UNBALANCED BIDS REJECTED.

Bids were received on Tuesday in the Department of Public Works for three contracts for laying water pipes in the Twenty-third and Twenty-fourth Wards. On two of the contracts the price mamed for rock-excavation, earth-ending and brick-masonry was one cent a cubic yard, making the total amount for these items less than two per cent of the whole bid, and placing the remainder on the other items. A fair apportionment would make the items named 60 per cent of the whole bid, and placing the remainder on the other tems. A fair apportionment would make the items named 60 per cent of the whole. Acting under the authority conferred by the Consolidation act, Commissioner Squire has rejected these bids, and says that he will act in the same way with all others of a similar character.

FLORIDA ORANGES TO BE SOLD IN ABUNDANCE. A delegation of Florida fruit-growers have been in the city for a few days in conference with the officers of the Foreign Fruit Exchange, relative to the marketing of Florida eranges. It was decided to send all of the coming crop to this market, and it is believed that it will displace a large proportion of the Mediterranean fruit. Last year's crop amounted to about 800,000 boxes, and the coming crop promises a yield 25 per cent greater. As each box of foreign fruit pays a specific duty of 25 cents, the Florida fruit will not meet with much competition.

Dr. D. M. Thomas, the physician-in-chief of wards Island, reported to the Emigration Board yesterday that the emigrants who arrived on the steamships Wesser and Polynesia, and are detained to see if they are likely to have amalipox, are doing well. Those who came on the Wesser are kept separate from the others. There are about 150 cases of measles among the Wesser's passengers, but no cases of smallpox have developed among those of either steamer. The nurses and other attendants have been vaccinated, and every precaution is being taken to prevent communication with other people.

William H. Maloney, general clerk of the Board of Aldermen, yesterday entertained his friends at the Astor House in honor of his completion of a quarter-century of public service. On June 12, 1860, he was appointed general clerk of the Board of Counctimen. In 1867 he was made chief clerk of the Board of Councilmen, and in 1869 was elected clerk of the Board of Assistant Aldermen. He remained in the Board until 1874, and when the Assistant Aldermen passed out of cristence, in 1874 he was made a clerk of the Board of Aldermen, and has been appointed each year since.

The acting captain and the crew of eight men of the Norwegiau bark Donner Zogea, which arrived in Brooklyn on May 27, were taken to the Long Island College Hospital, as they were suffering from symptoms of poisoning. Analysis of the water which they used on a voyage of forty-three days from Brazil, showed that it contained lead from the paint in the inside of the water barrels and a sediment of a poisonous nature, which is believed to have come from the stream of singrish water from which the supply was secured in Brazil. The sick men are now recovering.

It seems strange that it is necessary to persuade men the you can cure their diseases by offering a premium to the mass who falls to receive benefit. And yet Dr. Sage undoubted cured thomsands of cases of obstinate calarrh with "Catarrh Hemedy," who would never have applied to him it had not been for his offer of the above sum for an incurab case. Who is the next bidder for cure or cash!

DR. WM. A. HAMMOND, I have for some time made use of the funfaio Lithia Water cases of affections of the Avrous System, complicated with ght's Disease of the Kidneys, or with a Gonty Duthesta, results have been entimently satisfaciors. Lithia has for my years been a favorite rousedy with me in like cases, but Buffaio Water certainly acts better than any extemposons solution of the Lithia halts, and is mercover better by the stomach. I also often prescribe it in those cases recebral Hyperownia, resulting from over-mental work—which the condition called Nervous Dyspepsia exists—and erally with marked benefit."
